

Kodiak Fire Station**FY2023 Request: \$15,000,000****Reference No: 64199**

AP/AL: Appropriation
Category: Public Protection
Location: Kodiak

Project Type: Construction
Recipient: City of Kodiak
House District: Kodiak/Cordova/Seldovia (HD 32)

Impact House District: Kodiak/Cordova/Seldovia (HD 32)

Contact: Micaela Fowler

Estimated Project Dates: 07/01/2022 - 06/30/2027 **Contact Phone:** (907)465-2506

Brief Summary and Statement of Need:

The existing Kodiak Fire Station was damaged in the 2018 Southcentral earthquake and is located within a tsunami hazard zone. The City of Kodiak has funded site selection and pre-development, concept design, and geotechnical site analysis for construction of a new fire station. The selected property fronts on Mill Bay Road and has ample frontage to support an apron serving up to six drive-thru apparatus bays while also accommodating necessary parking and return vehicle access. It is located well clear of the tsunami inundation zone and allows for excellent emergency response times.

| Funding: | FY2023 | FY2024 | FY2025 | FY2026 | FY2027 | FY2028 | Total |
|-----------------|---------------------|---------------|---------------|---------------|---------------|---------------|---------------------|
| 1008 G/O Bonds | \$15,000,000 | | | | | | \$15,000,000 |
| Total: | \$15,000,000 | \$0 | \$0 | \$0 | \$0 | \$0 | \$15,000,000 |

☐ State Match Required
 ☐ One-Time Project
 ☐ Phased - new
 ☐ Phased - underway
 ☐ Ongoing
 0% = Minimum State Match % Required
 ☐ Amendment
 ☐ Mental Health Bill

| One-Time Startup: | 0 | |
| Totals: | 0 | 0 |

Prior Funding History / Additional Information:

The existing station was constructed in three phases (Phase 1 in early 60s; Phase 2 in late 60s; Phase 3 in late 70s or early 80s) and was never designed with a specific purpose of being a fire station. The building served as a public works building for several years before becoming a fire station. Replacement of the station became critical after a magnitude 7.9 earthquake on January 23, 2018, which highlighted structural deficiencies that put emergency personnel and equipment at risk.
